

Partnership on Sustainable,
Low Carbon Transport

Powering the Sustainable, Low Carbon Transport Revolution with Ambition, Solutions and Collaboration

The SLOCAT Partnership engages a vibrant international, multi-stakeholder ecosystem of over 90 entities across transport sectors associations, knowledge and academia, governments, multilateral organisations, NGOs, philanthropy and industry; as well as a large community of world-class experts and change-makers.

By going where others do not or cannot go individually, our inclusive, multi-stakeholder Partnership is leveraged to set ambitious global agendas and catalyse new thinking and solutions for the urgent transformation of mobility systems.

Mission

To enable collaborative knowledge and action for sustainable, low carbon transport and bring the voice of the movement into international climate change and sustainability processes.

Focus

Our primary focus is land transport and all modes of mobility.

While the analyses, actions and initiatives we propose are universal, our geographical footprint is targeted at the Global South.

Avoid

Avoid and reduce the need for motorised travel

Shift

Shift to more sustainable modes

Improve

Improve transport modes

“ We champion frameworks that primarily avoid unnecessary transport, while shift to low carbon modes and improve vehicle design, fuel efficiency and energy sources.

Our work does not disregard the impact of maritime transport and aviation towards sustainable, low carbon development goals.”

Values

Recognised **leading convener and voice** of an inclusive, multi-stakeholder community of change-makers

Experienced ambitious **thought leader** for urgent transformative, with positive impact on people and planet

Credible **integrated, inter-modal, multi-sectoral, multi-stakeholder** approaches for cost-efficient solutions, adapted to different socio-economic realities

Skilled in **collaboration within and beyond the transport community** for long-term legacy

Acknowledged as a **reputable, trustworthy, competent partner** with nimble and flexible procedures

Co-creation, co-leadership and co-delivery across three mutually-reinforcing work streams

Knowledge and Policy Analysis
We synthesise and translate data and knowledge on combined transport, climate and sustainability matters.

Advocacy and Engagement
We provide thought leadership and advocacy to shape the global sustainable, low carbon transport agenda.

Dialogue and Networking
We curate multi-stakeholder trust spaces for peers within and beyond the transport community to exchange, learn from each other and collaborate.

Programmatic Lines

Leadership for Change

Fresh and bold leadership for sustainable, low carbon transport

- Changemaking, leadership, governance
- Emerging leaders, Global South, intergenerational
- Equity, inclusion, social justice, gender, race, youth

Pragmatic Policies and Pathways

Vision, knowledge and tools to shape the implementation of the sustainable, low carbon transport revolution

- Ambition- and vision-setting, trajectories
- Policy, institutional, and financial frameworks alignment
- Knowledge-based decision making, cost-efficiency analysis, cost of inaction

Accelerated Action, Enhanced Impact

From vision to action and outcomes through multi-stakeholder collaboration

- Knowledge-policy-practice interface
- Implementation barriers, context-appropriate solutions and resources
- Investment revolution, value for money, return on investment
- Nexuses, multi-stakeholder alignment, multi-level governance
- Tactical urbanism, quick wins, accelerating systemic change

New Thinking for Changing Landscapes

Future thinking for sustainable, low carbon mobility under changing conditions

- Foresight, futures, innovation
- Global shocks, systems resilience, climate change adaptation
- Behavioural change, paradigm shift
